## **Host a Screening Ambassador!**

Did you know take-up rates for local breast and cervical screening services are amongst the lowest of any provider in the country?

Why not invite one of our Screening Ambassadors along to a meeting of your community group, staff, exercise class or even local neighbours?

Our female ambassadors will tell you about what you can do to help protect yourself, about the screening process and about local services that can assist you.

Contact: **K&C LINK** on ph: **020 8968 7049** or email: **[rbkclink@hestia.org](mailto:rbkclink@hestia.org)** for further information now to arrange a FREE local session.
